

# KDAPT for Hospitality

Turn Hospitality Data into Revenue, Profitability & Smarter Decisions

## Transform Hotel Data into a Competitive Advantage with KDAPT

Know what's happening. Understand why. Act instantly.

### The Challenge

Your hotel generates thousands of data points every day. Are they working for you?

Revenue, guest, and operational data remain trapped across disconnected systems, making it difficult to respond quickly to changing business demands.

#### Common Challenges

No single view of hotel performance across properties

Time-consuming manual reports and spreadsheet reconciliation

Delayed visibility into RevPAR, GOPPAR, occupancy, and profitability

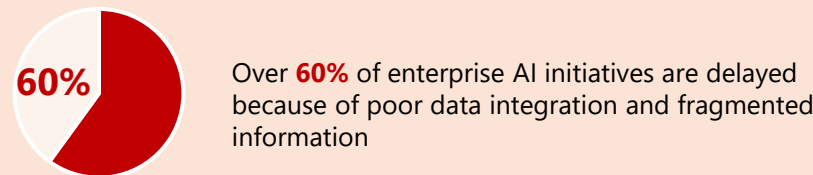

Rising labor and operational costs with limited forecasting

Reactive decisions based on yesterday's data instead of real-time insights

PMS POS Financial ERP Reservation Systems Guest Feedback Operational Reports

#### Did You Know?

Hotels lose valuable revenue opportunities when pricing, occupancy, and operational insights rely on delayed or incomplete data.

Labor costs account for nearly 45–50% of hotel operating expenses, making real-time operational visibility essential to protecting margins.

### The KDAPT Advantage

KDAPT brings together all your **structured and unstructured hospitality data** on one AI-powered platform.

Ask a business question in natural language and get instant, context-aware insights, interactive dashboards, and executive-ready reports without waiting for manual data consolidation.

From disconnected systems to one intelligent source of truth

### Business Outcomes

#### Drive Revenue Growth

Identify pricing opportunities, booking trends, and demand patterns to maximize RevPAR and occupancy.

#### Protect Profit Margins

Track labor, procurement, food & beverage, and operating costs before they impact margins.

#### Elevate Guest Experiences

Combine guest feedback with operational data to uncover service gaps and improve satisfaction.

#### Gain Portfolio-wide Visibility

Gain real-time visibility across hotels, departments, and portfolios from one centralized platform.

#### Accelerate Executive Decision-making

Replace spreadsheets with AI-powered answers, automated reports, and interactive visualizations.

#### Enterprise-grade Security & Governance

Role-based access, governed data, and enterprise-grade security built for modern hospitality organizations.
